

MALADYPE THEATRE

Three Sisters

THE PERFORMANCE SPACE – THE STAGE:

6 m (width) x 7m (depth) x 4m (height)

Comment: the sizes above are the standard sizes of the stage design elements, the play cannot be performed in a smaller space. It is important to provide the movement of the mobile panel elements by an even flooring. Should the flooring be damaged or uneven, we kindly ask the venue to inform us beforehand.

ASSEMBLING - SETTING, LIGHTS, SOUND:

The assembling of the setting, the lights (12 pcs of LED-lights with dimmer, which are placed on the setting, carried by the company) and the arrangement of sound technical elements require 6-8 hours. During the assembling of the setting, the venue should provide 1 technical manager, 1 light and 1 sound technical crew members.

DISASSEMBLING – SETTING, LIGHTS, SOUND:

The full disassembling of the setting requires 4 hours to which the venue must provide technical crew members.

TO BE PROVIDED BY THE VENUE:

- Technical support and personal assistance for the subtitling or translation of the performance
- Separate dressing rooms for the actors and actresses with showers
- Parking spot for the truck carrying the crew members and the stage setting elements.

TOURING COMPANY:
